

Please Join Us for the 6th Annual  
**Courtney's Crusade**

Sudden Cardiac Arrest ended my Life...I was only 24 years old.  
Each year sudden cardiac arrest claims the lives of over  
250,000 people. On August 10<sup>th</sup>, 1999 I was one of them.

**SATURDAY, October 13, 2007**

7:00 pm

**Grisby Grill**

14555 Grisby Road, I-10 @ Hwy 6

Proceeds from the auction will be put towards the  
purchase of Automated External Defibrillators (AED's)  
to equip schools and other public buildings.

**NONPROFIT 501(C)(3)**

**Courtney's  
Crusade**

## **SUDDEN CARDIAC DEATH:**

**It can strike  
ANYONE,  
ANYWHERE,  
ANYTIME.**

Courtney's Crusade was founded after our family suffered the tragic loss of our 24 year old daughter and sister from Long QT Syndrome, a rare heart disease that effects the electrical system of the heart.

Courtney suffered sudden cardiac arrest in the early morning hours of August 9, 1999, and although paramedics arrived quickly she had been without a heartbeat for nearly eight minutes. Through defibrillation, the paramedics were able to restore her heartbeat, but Courtney later died on August 10.

Through much research, we have learned that one key to survival in the event of sudden cardiac arrest is early defibrillation. However, few public places have access to Automated External Defibrillators (AED's). Our mission at Courtney's Crusade is to equip schools and other public buildings with AEDs.

Each year Sudden Cardiac Death claims the lives of a quarter of a million people in the United States alone and kills one adult every one to two minutes.
